Dr. Jane E. Henney:  
Commissioner  
Food and Drug Administration  
5600 Fishers Lane, Room 14-71  
Rockville, MD 20857

Dear Dr. Henney:

Please work to end the use of antibiotics as a general growth ingredient in livestock feed. This practice threatens the health of all humans for the sake of fat hogs and chickens.

The growing resistance of various diseases to antibiotics is well established. Please don't let corporate pressures influence the continuation of this problem.

Please ban the improper use of antibiotics in the meat industry.

thanks!
